Does the World Need Another Speaker

“COMMUNICATION does not depend on syntax, or eloquence, or rhetoric, or articulation but on the emotional context in which the message is being heard. People can only hear you when they are moving toward you, and they are not likely to when your words are pursuing them.” ~Edwin H. Friedman

Speaking

Does the World Need Another Speaker?

If just “another” speaker, NO!

How do you know when you met just “another” speaker?

When you find yourself experiencing symptoms of (in no particular order):

1. Boredom
2. Impatience
3. Confusion
4. Overwhelmingness
5. Frustration

...just to name a few, to the point where you are counting your seconds to make like the roadrunner and dash out the nearest exit door.

How do you know when you come across a speaker who is not just “another” speaker?

When you come across a speaker who delivers a message that:

1. **Captures** your heart for *more than* just a moment.
2. **Captivates** your mind for *more than* just a day.
3. **Empowers** you and gets under your skin, resurrecting your life purpose once buried to visibility status, where you can now see, hear, feel and experience the authentic YOU.
4. **Evokes** your greatest inborn strengths and potentials to surface, so you can put your talents and abilities to the ultimate performance test. AND
5. **Moves** you to take action to actualize your vision, your dream for the long-term, leaving you with *more than* just a lasting impression, but rather to authenticate YOUR mark, your legacy footprint during your journey through life.
